

Collier and Sharp children

Waranga Chronicle

13 May, 1875

King Death is still busy amongst us. Mr Sharp, of Whroo, has to mourn the loss of two of his sons, and Mr Collier of the same place has also lost two children, the cause being dysentery following measles.

We have also to report the demise of Mrs Anstead who had been residing here [Rushworth] with her husband, almost since the first rush.

James Lewis Sharp, 4 years, and John Sharp, 6 years, were both buried on 25 April, 1875, according to cemetery records.

Stephen Collier, 4 months, is recorded buried on 4 March, 1875, and Thomas Collier, 19 months, buried on 9 May, 1875.
